16 additional shades – now featuring AltroBead™ Technology giving a unique, soft and domestic look!

## Altro Aquarius™

Wet environment safety flooring for shoes and bare feet;

now with 16 new shades with all the benefits of Altro safety flooring and the look and feel of home

# Altro Aquarius; the safer, attractive solution for wet environments

## Creating homes from home with more colours and more choice

Expectations for environments where people live, such as care homes and student accommodation, are at an all-time high from those paying to be there. Cold, clinical accommodation is no longer acceptable; looks really do matter. For those providing the accommodation, particularly when it comes to wet environments, safety remains a top priority. Altro Aquarius now brings together the best of both worlds. With a Pendulum Test Value (PTV) of 50\*, Altro Aquarius has a proven track record of keeping people safer in wet and dry environments, whether in shoes or bare feet. Now in addition to the current 20 shades we have **16 new attractive colours** with a soft-look finish.

## Introducing our unique AltroBead Technology

The 16 new shades of Altro Aquarius are the first to be developed with AltroBead Technology. For each shade, tiny beads in three carefully selected hues are blended and evenly distributed into the flooring on top of the base colour. The result is the consistent, soft appearance that you would expect and want from domestic interiors. The subtle blend of four colours in each shade makes matching or choosing walls and fixtures much easier and allows a different, and more personal, touch within block accommodation, even if the same flooring is chosen for each.

## Uncompromising performance

The beauty of AltroBead Technology is that it allows you to bridge the gap between

## high-performance safety flooring and demands for domestic-style flooring.

The new Altro Aquarius nature-inspired shades and soft finish give a high-end look for spas and residential use where people want to feel relaxed and not conscious of the fact they're walking on safety flooring; it shouldn't cross their minds. Altro Aquarius enables people to take their safety for granted. This also makes it the perfect choice for home adaptations, where keeping vulnerable users and their carers safe is paramount. Being able to put Altro safety flooring into a home environment helps maintain independence, playing a role in keeping someone in their own home for as long as possible.

To make it easier for carers and cleaning teams, Altro Aquarius contains Altro EasyClean Maxis PUR™ Technology so cleaning is an easier and quicker job.

Altro Aquarius was developed for lasting performance in wet and dry, shoes or barefoot. Achieving Class B to DIN 51097 for barefoot use, plus a Pendulum Test Value (PTV) of  $\geq 50$  (Slider 96), it helps prevent slips in areas where people are most vulnerable.

Altro Aquarius performs against common contaminants found in wet environments including shampoo, conditioner and shower gel\*\*. It provides a high level of slip resistance whether wet or dry, so there is less pressure on maintenance teams to keep the flooring dry. This means that carers can focus on bathing, drying and dressing residents without having to worry about themselves or their patient slipping.

With the product durability you would expect from Altro, Altro Aquarius maintains its slip-resistance throughout its lifetime, making it resistant to wear and tear from shoes, yet developed to go easy on bare feet.

\* Slider 96 (shoes)

\*\* Sliders 96 (shoes) and 55 (bare feet)

## Relaxing tones

Soothe and calm with blues, green and purples

Seahorse PX2011

WR390 / A1M390 / LRV 30

Anchor PX2008  
WR391 / A1M82 / LRV 16

## Colours can spark a range of emotions

These 16 additions to the Altro Aquarius range have been developed with comfort, warmth and relaxation in mind to make the bathing experience more enjoyable and avoiding the clinical feel that some home-from-home environments create.

Inspired by nature, the additional 16 appealing tones offer design choice without compromising on safety.

If you are looking for brighter, bolder safety flooring colours for wet environments, the 20 original Altro Aquarius colours are still available.

From cool Dragonfly to spicy Coral Crab, we have a shade to suit. Please visit our website for more details.

WR = weld rod, A1M = mastic,  
LRV = light reflectance value

<sup>†</sup> In changing rooms where spikes and studs are used, we recommend Altro Atlas™ 40

Typical applications:

**Bathrooms. Showers. Wet environments in social care; home adaptations, social housing. Student accommodation. Swimming pool surrounds. Saunas. Spas. Changing rooms<sup>†</sup>.**

## A complete solution

Altro Aquarius has been designed to fit perfectly with Altro Whiterock™ hygienic wall cladding, where sold, forming a sealed, watertight system for enhanced safety and hygiene. It creates an impressive high-end look and allows tailored designs, resulting in exactly the look and feel required.

### **Specialist products for specialist solutions**
